

REACH & RoHS DECLARATION

REACH DECLARATION

The EU REACH Regulation (RL 1907/2006 EG) demands **R**egistration, **E**valuation, **A**uthorisation and **R**estriction of **C**hemical substances.

REACH entered into force on June 16, 2014 with the aim of improving the protection of human health and the environment through better and earlier identification of the intrinsic properties of chemical substances.

The REACH regulation obliges suppliers to inform customers of the presence of Substances of Very High Concern (SVHC).

Based on the available information and analytical data from our suppliers, SVHC are not contained in any substance, chemical, part or assembly supplied in Fero products.

ROHS DECLARATION

The EU **R**estriction of **H**azardous **S**ubstances Directive restricts the use of lead, mercury, cadmium, hexavalent chromium and two brominated-flame retardants PBB and PBDE in electrical and electronic products sold in Europe after July 1, 2006. Fero certifies that to its knowledge products, which are designated to be RoHS compliant, meet the requirements of Directive 2011/65/EU of the European Parliament and of the Council.

Fero is dedicated to implementing and maintaining compliance to the (RoHS) directive, while ensuring product quality, reliability, performance, and cost effective compliant products. Fero is dedicated to supporting RoHS compliant products that benefit our customers and minimize impact to the environment.
